Attn: Mr. Martin Kolt,

Re: Ventilation area of EC-25 plastic ceiling vent with metal grille

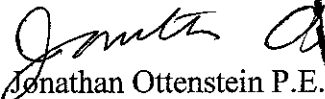

Dear Mr. Kolt;

I have measured the net vent area of the plastic ceiling vent with a metal grille for the EC-25 that you sent me.

The overall dimensions of the metal grille are approximately 9 inches x 5.5 inches. The net vent area of the metal grille is 29 square inches after subtracting the thickness of the metal bars.

I hope this information will be of use to you. If you have any information, please feel free to call me.

Very Truly Yours,

Jonathan Ottenstein P.E.
