

THE POP VENT™

For Superior Attic Ventilation

Mill finish

Black finish

The Pop Vent™ is an engineered exhaust ventilator, not just a cover for a roof opening. It prevents wind from entering the attic, and allows hot air and moisture to leave. It helps to protect and extend roof and shingle life.

- Seamless spun cap
- Spun flat roof base
- Stamped vent louvers
- Screws hold cap on for easy attic entrance
- Durable all aluminum construction
- Maintenance free
- Lifetime guarantee
