

# AURA-T VENT

*Exhausts Like a Turbine with No Moving Parts*

Patent Pending

- **A non-electric ventilator designed to exhaust 24/7, keeping the RV or Trailer safe from rain or snow entry while eliminating condensation**
- **Ventilates harmful fumes, pollutants and excess heat out of the RV or Trailer while it is parked, so that the living and working space is safe and comfortable**
- **Available in 6 inch size, and can accommodate any roof thickness with our garnish and finishing ring**
- **Made of heavy gauge aluminum and comes with a lifetime warranty, available in mill or painted finish**
- **Recommended application: 1 vent for every 8 feet of trailer**
